02/2022 - 10/2023

Udemy, Batumi

Web Development Training

I have honed my web development skills through a combination of self-directed learning and structured online courses, including:

- **Udemy Courses:**
- Completed comprehensive web development courses on Udemy, covering both front-end and back-end technologies.
- Acquired proficiency in [list specific technologies or languages learned].
- **Various Online Platforms:**
- Engaged with various online resources, including [mention specific sites or platforms], to stay updated on industry best practices and emerging technologies.

My self-directed learning journey has equipped me with a solid foundation in web development, enabling me to tackle diverse challenges and contribute effectively to web projects.

Courses

JS 05/2023

Education and Professional DevelopmentJavaScript Mastery Course - Udemy

- Successfully completed a comprehensive JavaScript Mastery course on Udemy, covering fundamental concepts, advanced techniques, and practical applications in web development.
- Gained proficiency in:
- JavaScript fundamentals, including variables, functions, and control flow.
- DOM manipulation and interaction for dynamic web pages.
- Asynchronous JavaScript, including promises and async/await.
- Client-side frameworks and libraries such as React.js.
- Applied acquired knowledge through hands-on projects, demonstrating the ability to create interactive and dynamic web applications.

This intensive course has equipped me with a strong foundation in JavaScript programming, enhancing my ability to contribute effectively to web development projects.

React & Redux 06/2023

Education and Professional DevelopmentReact and Redux Mastery Course - Udemy

- Successfully completed an in-depth React and Redux Mastery course on Udemy, covering advanced concepts and best practices in building modern, scalable web applications.

JS

Gulp

SASS && SCSS

React && Redux

Node.js && next.js

tailwindcss && Bootstrap

- Acquired proficiency in:
- Building robust and interactive user interfaces using React.js.
- State management and predictable state containers with Redux.
- Integrating React with external APIs and backend services.
- Implementing advanced features such as routing and authentication in React applications.
- Demonstrated skills through hands-on projects, showcasing the ability to develop responsive and feature-rich web applications.
- Expanded knowledge of the React ecosystem, including popular libraries and tools used in conjunction with React and Redux.

This comprehensive course has enhanced my expertise in React and Redux, providing a solid foundation for developing cutting-edge web applications with a focus on scalability and maintainability.
